Abstracts*

	No.	Page
Abrasion		
Abrasion and wear of testing of textile fabrics (Dawson)	9	459
Abrasion-resistance		
Comparison of abrasion-resistance with other physical properties (Upham)	7	348
Absorption		
Chromatography of carbohydrates and some related compounds (Lew, Wolfrom, and Goepp)	2	92
See also **Cellulose; Dyes; Infrared; Polymerization; Wool**		
Acetone derivatives of hexahydric alcohols. Part I. Triacetone mannitol and its conversion into *D*-arabinose (Wiggins)	7	348
Acids		
Alginic acid (Moncrieff)	1	45
Alkylnaphthalenesulfonic acid for acid fulling (Melzer)	9	464
Amino acids, synthetic (Fugate)	11	585
Uronic acids, determination of (McCready, Swenson, and Maclay)	10	523
See also **Xanthic acid**		
Acids and Bases, definition of (Emschwiller)	9	460
Activity recording instruments applied to textile machinery (Parsons)	8	405
Adsorption		
Mechanism of reinforcement (Goldfinger)	7	348
Mechanism of reinforcement, II (Goldfinger)	7	348
Moisture adsorption of textile yarns at low temperatures (Darling and Belding)	11	589
Reversible adsorption of proteins at the oil/water interface. I. Preferential adsorption of proteins at charged oil/water interfaces (Elkes, Frazer, Schulman, and Stewart)	2	92
Agave as a sugar-producing and textile plant (Ridolfi)	9	464
Air: *See* **Electrical Energy**		
Air conditioning		
Air conditioning and dust control (Holt)	7	353
Principles of air conditioning (Duerst)	10	529
Alginates		
Alginates [textile fibers] (Jones)	9	464
Alginate "rayons" are distinctive new fibers (Ripley)	3	142
Algosols: *See* **Dyes**		
Ammonium compounds, methods for the estimation of high-molecular quaternary (Dubois)	1	37
Antimony oxide: *See* **Flameproofing**		
Antiperspirant creams, action of, on fabrics (Bien)	9	466
Apparel-sizing systems, U. S. and European (Collier)	8	406
Asthma, studies with *p*-phenylenediamine in fur workers (Silverberg and Heimann)	10	529
Atomic physics, a brief review of (Pall)	10	529
Bacteria		
Transformations of iron by, in water (Starkey)	1	46
See also **Cellulose; Felt; Wool**		
Bases: *See* **Acids**		
Bast fiber		
Structure, properties, and preparation of certain bast fibers (Hanson)	12	649
Cottonized bast fiber, II, III, and IV (Stroink, Bendel, and Beerens)	10	528
Bemberg: *See* **Rayon**		
Bleaching		
Bleaching of cellulose in linters (Thoria)	5	228
Flax cellulose, behavior of, during bleaching, with particular emphasis on alkaline peroxide solutions, on the basis of the solubility number (Kuchinka)	1	41
Continuous bleaching, wartime advances made in (Butterworth)	10	527
Determination of residual lignin. A colorimetric method for the control of the bleaching process (Giertz)	5	226
Fur bleaching, principles of (Austin)	4	180
Modern cotton bleach, history of the (Baier and Hundt)	9	464
Peroxide bleaching, some aspects of, I (MacNab)	10	527
Blends: *See* **Carding; Spinning**		
Bonded webs—Unspun cotton (Stewart)	11	593
Breaking strength of two classes of upholstery fabrics, comparison of strip and grab (Morrison and Wilbur)	11	584
Brönsted's theory: *See* **Acids and bases**		
Building materials		
Fibrous building materials (Hills)	1	45
Plimber utilizing waste materials with aid of synthetic resins (anon.)	11	593
Butyl acetyl ricinoleate (Soyka and Wilson)	2	90
Canvas: *See* **Rotproofing**		
Capillary flow: *See* **Elastic Recovery**		
Carbohydrate phosphoric esters, I (Percival and Percival)	6	291
Carbohydrates		
Action of hydrogen peroxide on (Payne and Foster)	2	97
See also **Absorption**		
Carbon dioxide is suitable agent to fight textile fires (Allen)	4	189
See also **Cellulose**		
Carbowax 4000, dipole moment of (Svirbely and Lander)	7	349
Carboxymethylcellulose		
A new plastic for paper makers: Carboxymethylcellulose (Penn)	11	594
Carboxymethylcellulose—uses and applications (Hollabaugh, Burt, and Welsh)	3	139
Card clothing (Handley)	5	240
Carding		
Carding developments in relation to modern spinning technique (anon.)	5	236
Carding rayon-wool blends (McComb)	9	467
Sliver reducer—something new for the carding department (anon.)	5	236
See also **Flax; Rayon; Wool; Worsted**		
Carpet manufacture (Hopkins)	8	403
Casein: *See* **Dyes**		
Catalysis: *See* **Polymerization**		
Cathode-ray tube: *See* **Photography**		
Cation-active compounds, use of, in the textile industry (Sisley)	7	353
Cellulose		
Acetylation of cellulose with acetyl chloride, a new method of (Popov)	2	90
Alkali celluloses and cellulose xanthate, mechanism of formation of (Rogovin)	4	177
Carbon dioxide as an essential factor in the bacterial decomposition of cellulose (Perlin and Michaelis)	11	586
Cellulose reactions, critical studies of (Haller)	8	397
Cellulose-water system, I (Hermans, Vermaas, and Hermans)	4	178
System cellulose-water, optical properties of the (Hermans, Hermans, and Vermaas)	11	586
Chemical changes which take place in the cellulose macromolecule in copper-ammonia solution under the influence of atmospheric oxygen (Ivanov and Stakheeva-Kaverzneva)	10	525
Cross-linkages in cellulose and their practical implications (Heuser)	4	178
Density of cellulose fibers		
I. Introduction and experiments on the penetration of liquids into dry cellulose (Hermans and Vermaas)	10	524
II. Density and refractivity of model filaments (Hermans, Hermans, and Vermaas)	10	525
III. Density and refractivity of natural fibers and rayon (Hermans, Hermans, and Vermaas)	10	525
Deposition of Congo red in cellulose (Wälchli)	5	229
Dispersion of cellulose by cellulose xanthate solutions (Scherer)	5	228
Does copper naphthenate oxidize cellulose? (Bartlett and Goll)	1	39

Sulfide wool wastes endanger sewer system (Rawn)	7	359
Water: *See* **Bacteria; Rayon**		
Water absorption: *See* **Cellulose; Wool**		
Waterproofing, textile (anon.)	7	350
Water-repellency		
The Quartermaster fights the weather (Lee)	11	585
Water-repellency of fabrics and a new water-repellency test (Baxter and Cassie)	10	524
Water-vapor permeability		
Measurement of the water-vapour permeability of textile fabrics (Pierce, Rees, and Ogden)	3	139
Water-vapor permeability—what it is and how it works (Aiken, Doty, and Mark)	2	98
Water-vapor-permeability tester (Carson and Worthington)	9	460
Wear: *See* **Abrasion**		
Weathering		
Some variables in weathering tests of textile fabrics (Backer and Harwood)	1	38
See also **Dyes**		
Weaving		
Weaving of tender and oversized woolen warps (anon.)	5	236
See also **Looms; Rayon crepes; Shuttles**		
Wettability: *See* **Fibers**		
Wetting agents		
Constitution and effectiveness of wetting agents (Götte)	11	592
Efficiency of wetting agents (Krishnappa, Doss, and Rao)	8	401
Industrial use of surface-active agents (Ackley)	11	592
Method of determining organically combined sulfuric anhydride in surface-active products (DuBose and Holland)	1	38
Winding		
Winding, doubling, and twisting of rayon and silk yarns (anon.)	7	359
New, fully automatic, pirn winding machines (anon.)	5	240
Automatic winding of warping cones and cheeses (anon.)	3	144
New high-speed winding and warping machinery (anon.)	3	144
Wool		
Chemistry and technology of wool		
I. Some relationships between the constitution, properties, and uses of wool (Speakman)	6	295
II. X-ray interpretation of wool (Astbury)	6	296
Absorption of acids by wool (Larose and Tweedie)	6	289
Absorption of water by wool (Cassie)	2	92
Sorption of vapours by keratin and wool (King)	3	139
Colored effects on wool by new methods (Noble)	8	402
Chemical treatment of wool which increases its rate of felting (Freney and Harris)	11	592
Chemical composition and physical properties of bisulfited wool (Carter, Middlebrook, and Phillips)	12	647
Frictional properties of wool fibers (Mercer)	5	230
Twist in wool (Freney, Deane, and Anderson)	9	463
Use of polymers to immunize wool against acid dyes (Lipson and Speakman)	11	592
Data on wool-acid-water relationships (LaFleur)	3	135
Structure of the cuticle of wool (Mercer and Rees)	11	592
Rapid method for the determination of vegetable matter in wool (LeCompte)	4	177
Notes on the estimation of vegetable material in scoured wool (Lipson)	1	38
Growth changes in "tender" wools (Lang)	3	143
Producing an even top (Robinson)	5	235
Chemical aspects of the application of dust-laying oils to wool (Bayler and Weatherburn)	6	298
Effect of dyestuffs on combing and spinning results (anon.)	5	233
Formation of polymers in textile fibers (Lipson and Speakman)	11	592
Uric acid determinations on moth-damaged wool (Bolliger)	7	347
Analysis of grease wool for clean content (LeCompte, Coe, and Gold)	3	134
Chemical aspects of wool protein behavior (LaFleur)	3	143
Bacterial degradation of woolen felts (Binns)	3 139; 5	228
Wool [wool futures trading] (anon.)	7	359
Export angles of Britain's woolen-worsted industry (Skalka)	7	359
Indian wool industry—noteworthy experiment at Patan (Shah)	2	103
Investigations of the production, transportation, and marketing of wool (Hearings before the Special Committee to Investigate the Production, Transportation, and Marketing of Wool, U. S. Senate)	8	407
See also **Carding; Dyeing; Dyes; Felting; Heat; Protein; Rayon; Shrinkproofing; Weaving**		
Wool fat, constituents of, I, II, and III (Velluz, Lederer, Daniel, and Tchen)	10	530
Wool research—Wool industry research in the war years (anon.)	7	359
Woolens: *See* **Printing**		
Worsted		
Worsted yarns effectively spun on cotton frames (Cleyn)	6	298
Fibre-breakage in worsted carding (Townend and Spiegel)	8	402
Short-cut methods in worsted drawing (anon.)	4	182
Xanthic acid derivatives (Bulmer and Mann)	5	231
I. Preparation and comparative properties of isomeric xanthates and dithiocarbonates		
II. Thermal decomposition of disulfurdicarbothionic esters		
III. Interaction of carboxylic acid chlorides and potassium ethyl xanthate		
IV. Interaction of sulphonyl chlorides and potassium ethyl xanthate		
X-ray diffraction, application of, to chemical problems (Matthews)	1	41
Xylose, quantitative estimation of (Breddy and Jones)	5	227
Yarn		
Modern yarn conditioning (anon.)	3	143
Finishing of iron yarn (Hoffmann)	2	101
Testing of yarns and fabrics (Eyre)	6	289
Automatic sliver and roving regularity tester and an automatic yarn regularity tester (Anderson, Cavaney, Foster, and Womersley)	2	91
Description and use of (1) the Photographic Yarn Regularity Tester, and (2) the Photographic Sliver and Roving Regularity Tester (Anderson, Cavaney, Foster, and Gregory)	1	36
Plexon-plastic coated yarn (anon.)	8	402
Woolen yarn twist (Pero)	5	236
Measurement of the weight variations in cotton, roving, and yarn (Cavaney, Foster, and Gregory)	2	91
Yarn appearance photographic standards (DeLaRama, Jr.)	10	524
Coil tester accurately gages yarn diameters (McKenna)	9	460
See also **Adsorption; Cotton; Flax; Rayon; Shuttle furring; Stretching; Winding; Worsted**

War Research on Textiles

	No.	Page
Amphibious suit, German, EB Reg. No. 2953 (U. S. War Dept., Engineer Board)	9	469
Asbestos textile industry (Cryor)	7	352
Calorimeter—Measurement of heat of dilution and heat of wetting with an underwater metal block calorimeter (Lauer and Wilde)	8	408
Cellulose		
Study of use of other materials than wood or cotton as sources of cellulose (Ward)	7	352
See also **Fiber**		
Coated fabrics		
The measure of flexibility and resiliency of coated and laminated fabrics; a memorandum report (Mendelson)	4	183
Determination of adhesion of plies of coated fabrics (U. S. Quartermaster Depot, Jeffersonville, Indiana)	12	650
Survey of the coated fabrics industry in Germany (Lott and Hedger)	4	185
See also **Insulation**		
Coatings—Chemische Werke Albert Biebrick, near Wiesbaden [resin coatings] (Bidlack)	3	145
Cotton exports—Factors relating to prospects for exporting U. S. cotton to Germany (with limited information on Italy and Switzerland) (Jackson)	5	238
Cotton yarns—German turkey-red dyed cotton yarns of high fastness (Dahlen and Pingree)	4	188
Deterioration		
Deterioration of protective clothing stored in standard packing boxes on the island of Oahu (Smith, Jr.)	10	532
Probable mechanism of deterioration in processed HBT's and a simple preconditioning treatment to prevent (Haas and Rosenthal)	11	595
Documents relating to textile research, *Melliand Textilberichte,* Heidelberg (Smith)	5	238
Dyeing		
Dyeing and finishing of woolens and worsteds in Germany (Grimes)	7	352
Observations on dyeing and finishing methods in Germany (Rabold)	10	532
Some aspects of rayon and synthetic fabric dyeing and processing in Germany and Austria (Jackson, Jr.)	10	532
Dyeing of hosiery in Germany (Smith)	6	300
Dyeing of spun rayon and rayon filament yarn in mechanical apparatus in Germany (Smith)	10	532
Dyes		
Properties and application of indanthrene dyes (I. G. Farbenindustrie, Frankfort on the Main)	8	408
Register of products: Dyes and dyeing agents: Alphabetic part (3rd edition) (I. G. Farbenindustrie, A. G.)	11	596
German dyestuffs and intermediates; sodium hydrosulphite, sodium sulphoxylate: Industries (Holmes)	10	532
Development of new dyes and color application processes in Germany and Italy during World War II (Dahlen)	10	533
Education		
Textile education in Germany (Fales and others)	10	537
Knitting courses at the Technikum für Textilindustrie Reutlingen (Württemberg), Germany (France)	5	239
Embossing—Producing durable embossing on rayons and a machine for coloring embossed fabrics (with coloring formulas by I. G. Farbenindustrie) (Jackson)	9	470
Emulsifying agents, German chemical developments in (Hoyt)	4	185
Fabrics		
German pile fabrics for upholstery and wearing apparel (Repp)	5	239
Pile fabrics, Johs. Girmes & Co., Oedt, Germany (Repp)	5	239
Investigation of the German narrow fabric industry (Holgate)	8	408
German Army standard uniform cloth, "Einheitstuch" (von Bergen)	8	409
Developments in protective clothing in Germany (Burton)	8	410
Uniform, jungle, physiological appraisal of ten types of fabrics (Christensen, Silver, and Galligan)	4	183
Resistance of cellulose acetate, nylon, and other fabrics to attack by insects, Jan. 27–Mar. 6, 1943 (Goddin)	8	408
Felt—Manufacture of non-woven or compressed woolen felt in Germany (Stevens)	4	185
Fiber processing—Textile reconnaissance memorandum No. 20, Emmendingen, Germany, June 20, 1945 (Meierhans and Hagen)	7	353
Fiber structure—Fine structure and textile properties (Kratky)	11	596
Fibers		
Faserstoffe [Fibers] (Riechers)	10	533
Records of work on wool-type acetate staple fiber: Drawinella, a Wacker product (Smith)	5	239
Hollow fiber, cellulose production, and stoll abrasion tester. Süddeutsche Zellwolle, A. G., Kelheim Plant, Kelheim (Smith)	5	238
Quellfestmachung Fasern (Parts 2, 3, 4) [Swell-resistant fibers] (Lauer and others)	8	409
Fiber photomicrographs at I. G. Farbenindustrie, Höchst, Germany (Ward)	4	186
Field jacket, development of an intermediate-weight (Naval Clothing Depot, Brooklyn, N. Y.)	7	351
Finishing		
Textile finishing treatments (Pingree and Dahlen)	4	186
Fabric finishing operations for cotton and viscose at Bleicherei Uhingen (Eustis)	4	185
Protection of textiles and related products from damage by molds, fungi, insects, and flame (Crossley)	9	470
German technical developments in textile finishing processes (Richardson)	8	409
German methods for finishing rayon fabrics (Jackson)	10	533
German finish for spun rayon fabrics combining water-repellency, crease-resistance, and low residual shrinkage (Jackson)	9	470
Textile finishing machinery for cotton and rayon piece goods; Jacquard machines for looms weaving figured cloth, by H. Hardaker (Kay)	11	597
Fireproofing—Close-out Project T-17, fabric, fireproof (McGilly)	5	237
Flameproofing treatment—Clothing, HBT, effect of flameproof treatment on (U. S. Climatic Research Laboratory, Lawrence, Mass.)	11	595
Flax and hemp		
Preparation of flax and hemp fibers in Germany (Robinson)	8	410
Preparation of unretted green or natural and cottonized flax and hemp fibers (Robinson)	11	595
Gminde A. G. (cottonized flax project) (Flockenbast) at Reutlingen (Eustis)	4	186
Italian hemp industry (Robinson and Schoffstall)	8	411
Flying suit		
Chemically treated emergency flying suit (Schade)	4	186
Milkweed-filled flying suit (Maham)	5	237
Report on construction of a special protective garment to prevent cooling off in water (Schiefer and Kropf)	10	536
Special protective garment for aviators (*Seenotschutzgerat*) (Kern and others)	3	144
German aviation exposure foam suit (Andrews, Jr.)	10	536
German emergency flying suit (Jayne)	10	536
Two samples of a special type of German flying suit acquired at the Travemunde (Honsinger)	4	186
Footgear, Tests on, for trench foot (Libet)	6	299
German Textile industry		
Survey of the German cotton, rayon, and silk industries (Hill and others)	12	651
Glass fiber		
Fibrous glass textile industry (Leisenring)	6	301
Fiber-glass weaving by Rheydt Glas-Weaving Company, Walter Klevers, Rheydt near München-Gladbach (Geier)	7	353
Flexibility test of coated fiberglas material (Burstein)	5	237
I. G. Farben *		
Publications at I. G. Farben laboratory building, Höchst (Smith)	10	533
I. G. Farbenindustrie A. G., Mainkur Works, Fechenheim (Sudhoff)	3	145
Impregnation		
Impregnation of herringbone twill with dimethyl phthalate and various fixatives (Glickman) 4 183;	6	299
Insulation		
Effect of wind on the insulation value of windbreak and other fabrics (Day)	5	237
Thermal insulation of clothing by measuring increases in girth of wearer (Libet)	6	299
Air layers: Thermal properties when bounded by surfaces of high and low emissivity (Goddard and Van Dilla)	6	300
Overcoat, wool, roll collar versus jacket, field, M-1943, thermal insulation, moisture uptake, and utility (Clinton)	4	184
Thermal transmission of fabrics: Review of pertinent literature (Goddard and Van Dilla)	9	469
Development of special cold-wet-weather clothing: Mittens, suit, and boots (U. S. Navy Dept. Naval Clothing Dept., Brooklyn)	9	469
Effective insulation of Army Air Force clothing (Gagge)	6	299
Effective insulation of Army Air Forces flying clothing—its effect on the onset of sensible perspiration (Gagge)	6	300
Parka and trousers, wet weather; comfort, utility, moisture accumulation, and warmth during exercise; comparison of vinyl-resin-coated and Buna-S-coated (Clinton, Morris, and Galligan)	4	184
Simplification of clothing; thermal insulation, weight, moisture uptake, and utility of seven uniform assemblies (Clinton and others)	4	184
Uniforms for climatic zones 2 and 3 (Clinton and others)	4	184
Kapok, buoyancy studies of fiber substitutes for (Tiller)	8	407
Knitting		
Circular knitting and its development in Germany since 1930 (Hanes and Rosenquist)	5	238
Circular knitting and its development in Germany since 1930; supplement (Hanes, Jr., and Rosenquist)	10	533
Full-fashioned and warp knitting industry in Germany; supplement (Winkler and Fiedler)	10	533

* Names of other German industrial plants appear under various headings throughout the "War Research" section of this Index.—*Editor*

	No.	Page
Laundering properties of fabrics, Grosswäscherei Raatz, Berlin-Spandau (Smith)	10	538
Loom-making in Germany; textile machinery accessories, by R. S. Fearnehough (Porter)	11	597
Mildewproofing and **rotproofing** cotton fabrics with a combination of copper naphthenate and compound G-4T (Givaudan-Delawanna, Inc.)	8	408
Nomenclature—Glossary of some German names for chemical products (Curtis)	3	145
Plastics		
Bearing strength of plastic materials (Schwartz and Dugger)	4	183
Variation of tensile strength and elongation of plastic materials with temperature (Schwartz)	4	183
I. G. plastics activity (Bellamy, Nilsson, and Haught)	3	145
Fabrication of plastics, I. G. Farbenindustrie, Wolfen (Boundy and Hasche)	3	145
Printing—Textile printing industry in Germany (Broadbent)	9 470; 10	537
Processing—German textile processing and equipment (Richardson)	4	187
Proteins—Industrial proteins, Karl Freudenberg, A. G. (Markley)	4	186
Rayon		
Rayon weaving and throwing industry in Germany (Geier)	7 353; 8	411
Rayon throwing at KUAG (Kunstseiden Fabrik, A. G.), Waldniehl near München-Gladbach (Geier)	9	471
Processing of rayon staple fiber on cotton-spinning machinery in Germany (Hunter and others)	12	651
Processing of spun rayon yarn in Germany (Chapuis)	10	534
Viscose continuous and rayon staple fiber plants of the British, American, and French occupation zones of Germany (Hemsley and others)	10	534
Manufacturing of rayon piece goods, Vereinigte Seidenwebereien, A. G., Krefeld (Geier)	9	471
Research		
Arbeitsring für synthetische Faserstoffe—Dipl.-Ing. Dr. Dörr [Reports on activities of a research group working on the development of new synthetic textile fibers] (Reichsforschungsrat, Germany)	10	535
Research at the Hochschulinstitut für Textilchemie in Mulhouse and the Textil und Gerbereitechnisches Laboratorium of Karlsruhe Technische Hochschule (Smith)	5	239
Report on German Research Institute for the Textile Industry at München-Gladbach-Rheydt (Schiefer and Kropf)	10	534, 535
Report on textile research at the Textile Chemical Institute of the Mulhouse-Alsace Technical College (Schiefer and Kropf)	11	597
Research on textile testing, instruments, methods, standards, and properties of textile fibers in Germany (Schiefer and Kropf)	10	537
Scandinavian textile research and education (Smith)	5	238
Scientific research on cellulose and fibers (Ward)	6	301
Textile research and education at Textilingenieurschule Krefeld (Smith)	6	301
Textile research personality, institutions, and researches on textile testing, instruments, methods, standards and on properties of textile fibers in Switzerland (Schiefer and Kropf)	10	531
Zellwolle Lehrspinnerei: German organization for research on spinning of rayon staple (U. S. Quartermaster Corps, Military Planning Division)	11	597
Viscose research and textile testing at Vereinigte Glanzstoff A.G., Research Laboratory, Wuppertal-Elberfeld (Smith)	10	538
Wartime textile research and education in Germany (Smith)	9	470
Research personality in textiles of Germany (Schiefer and Kropf)	10	537
Research institute—Zellwolle Lehrspinnerei, Denkendorf, Germany [research on staple fiber] (Ward)	4	188
Rope and binder twine manufacture (Brewster)	4	187
Screen printing (Crossley and Richardson)	10	535
Sewing thread industry, German (Schiefer and Kropf)	3 145; 10	536
Shrinkage, preliminary report of study of causes [socks with wool field formula] (U. S. War Dept. Quartermaster Board)	10	531
Shrinkproofing—Report of test of trousers, wool, shrinkproof treatment (U. S. Quartermaster Board)	11	595
Sleeping bag		
Bag, sleeping, wool, experimental, for climatic zones 2 and 3: Thermal insulation and utility (U. S. Climatic Research Laboratory, Lawrence, Mass.)	11	595
Bags, sleeping, mountain, experimental, thermal insulation and utility (Talbott, Clinton, and Shelokov)	4 184; 6	300
Bags, sleeping, mountain, thermal insulation and effect of laundering (Talbott, Clinton, and Shelokov)	4	184
Cases for bag, sleeping, mountain, moisture disposition and thermal insulation (Christensen and Galligan)	4	183
Sleeping bags and sleeping-bag pads, measurement of thermal insulation by physical procedures (Van Dilla)	6	300
Spinning—Dureta machine in the production of cuprate silk (Claasen)	11	596
Spinning mill—Lehrspinnerei, Denkendorf (Larose and Burton)	8	410
Stop motion—Automatic stop motion for individual bobbins on yarn twisting frame, at Lehrspinnerei, Denkendorf (Grimes)	7	352
Tents		
Tent design and construction (Barnes)	10	531
Temperature and humidity conditions encountered in exposure of tents (Miller)	9	469
Test instruments [thermal insulation, abrasion, fish proteins], O. Mecheels, Hohenstein Schloss bei Bonnigheim (Larose and Burton)	6	301
Testing		
Textile testing in Germany (Burton and Larose)	8	411
Textile testing in Germany (Fourt and others)	10	538
Evaluating serviceability of textile fibers in Germany (Schiefer and Kropf)	10	537
Determination of statistical control and related factors in the performance of breaking-strength testing of fabrics (Edelman)	9	468
Test of clothing, H.B.T., impregnated, residual strength (U. S. War Dept. Quartermaster Board)	10	531
Study of grab method for determining break strength of cotton duck (U. S. Quartermaster Depot, Jeffersonville, Indiana)	12	650
Effect of reducing rate of traverse from 12 to 6 inches per minute in grab method for determining break strength of cotton duck (U. S. Quartermaster Depot, Jeffersonville, Indiana)	12	650
Test of trousers, cotton, field (9-oz. sateen) (U. S. War Dept. Quartermaster Board)	10	531
Test of new special underwear (white) to determine shrinkage and stretch on impregnation and wearing (Berger)	5	238
Report on visit to industrial centers in the north of England, at Leeds, Manchester, Nottingham, Langley Mills (Schiefer)	10	531
Textile testing methods and equipment at I. G., Höchst, Frankfort on the Main (Gaudreau and Agatstein)	4	187
Textile laboratory—Textilforschungsanstalt, Alderstrasse, Krefeld (Larose and Burton)	8	410
Textile printing industry in Germany (Broadbent and others)	10	537
Textiles—Japanese Air Force textiles (Corry)	11	594
Thermoplastics, manufacture of, in plants of the I. G. Farbenindustrie, A. G., Germany (Boundy and Hasche)	4	187
Viscose staple fiber at Sachsische Zellwolle, A.G., Plauen, Germany (Brown)	10	538
Warp sizing, German developments in (Meierhans *et al.*)	19	538
Waterproof seams for jackets, parka, and trousers (Naval Clothing Depot, Brooklyn)	7	351
Water-repellency		
Experimental jackets and trousers, cotton, od, water-repellency (Christensen and others)	4	185
Evaluation procedures for water-repellency treatments (Milton Harris Associates) (Sookne and others)	4	185
Weaving—Rayon weaving and throwing, Kampf and Spindler, Hilden near Düsseldorf (Geier)	10	534
Webbing, properties of (U. S. Quartermaster Depot)	11	596
Wool		
Elasticity of wool and synthetic wool types (Lauer and others)	8	408
German wool-combing industry and wool-grease-extraction processes, Jan.-Feb. 1946 (Robertshaw)	12	651
Pulling wool by the use of enzymes (Grimes)	9	471
Wool scouring, wool-grease recovery, and other by-product recovery in Germany (Grimes)	9	471
Wool substitute fabrics, preliminary report of study of (U. S. Quartermaster Board)	11	596
Woolen cards at Thomas Scheuffelen A. G., Ebersbach (Fils), Württemberg (Truslow)	4	187
Woolen industry		
German woolen industry (Otto, Dorman, and Jean)	4	188
Thomas Scheuffelen, Ebersbach, with comments on the German woolen industry (Dorman)	10	538

Machine for knitting hosiery	1	50
Circular knit hosiery and method of making same	3	147
Jacquard compensating means	1	49
Knitted fabric	11	598
Knitted goods	2	104
Knitting machine	1 50; 2 104; 3	147
Circular knitting machine	3	147
Circular knitting machine and method of operating same	2	104
Knitting machine [hosiery]	1	50
Split-foot knitting machine	1	50
Pattern chain for knitting machines	3	147
Sinker head for knitting machines	1	50
Forming of welts in straight knitting machines	2	104
Liquid treatment of fibrous material, apparatus for	7	360
Liquids— Sampling device	3	148
Looms		
Loom harness	1	50
Nose board for Axminster looms	1	50
Picker	1	50
Polymers		
Polyacrylonitrile polymers	12	652
Vinyl polymers	12	652
Production of copolymers of monoethenoid compounds	12	652
Process for conjoint polymerization of vinyl chloride with fumaric esters	12	652
Printing		
Discharge printing of cellulose acetate	2	104
Printing with leuco ester salts of vat dyestuffs	3	148
Processing		
Apparatus for treatment of textiles	4	190
Process for rendering fibrous textile materials fast to slipping	4	190
Process of treating textile materials	3	147
Quaternary ammonium salts and process of making same	3	147
Textile treatment	4	190
Rayon—Device for treating filamentary material	4	190
Rope-stacking apparatus	11	598
Rollers of drafting mechanism for textile fibers	1	49
Sheet material, manufacture of artificial fibrous	12	652
Shrinkage—Textiles and process for making same	3	148
Shrinking of textile yarns or filaments	3	148
Shuttle	1	50
Sizing		
Textile sizing compositions and process of making them	1	50
Process and apparatus for sizing yarns	11	598
Spindles		
Spindle	1	51
Textile mill spindle	3	148
Twisting spindle for spinning, twisting, and like machines	8	412
Spinning		
Spinning roll cover	1	51
Weighting mechanism for spinning and roving frames	1	52
Long-draft spinning apron	8	412
Surface tension, measurement of	8	412
Tentering machine speed control	1	51
Thread impregnation—Method of wetting thread	8	412
Waterproofing—Permanent waterproofing product and process of making it	1	52
Water-repellents—Water-repellency agents and processes of making and using the same	1	51
Weaving—Yarn cutting thimble	4	190
Webs—Method of forming web material	1	52
Winding		
Means for winding textile packages	3	148
Textile machine	8	412
Wool		
Treatment of wool	8	412
Recovery of wool from mixed wool-cellulose acetate textiles	7	360
Wool scouring process and compositions	8	412
Yarn		
Method of making highly stretchable textile yarn	1	51
Yarn conditioning process	3	148
Yarn treating process and resulting product	3	148
